## DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

Solar powered LED light sphere: turns on and off by itself; just leave it in the garden: it will automatically turn on in the dark and turn off to recharge during the day; just leave it in a sunny place. Equipped with rib LED it will give you a warm white light 3000K ideal for the outdoor area; but it will also give you 7 colors of your choice to entertain your guests. colors selectable via the supplied remote control (red, green, blue, yellow, purple, cyan, pink). 30 lumens. You can use it outdoors (IP66) or indoors; autonomy up to 6 hours (with full solar recharge); no need for any particular installation; totally wireless. Simple and puristic design, suitable for both modern and classic lifestyle: the 30cm white sphere is a classic in lighting design; solid and robust construction. Versatile use for example in the garden, on the terrace, in the winter garden, in the living area, at fairs and exhibitions, in the shop window and much more; it can be installed as a single unit or in a group.
