DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

7 Light Modes: 5 modes for white light: 100% brightness (Turbo), 40% brightness, 15% brightness, 2% brightness, Strobe; 2 modes for red light. solid red light and flashing red light. The commands can be via the comfortable rubber switch or via the hands free sensor that will allow you to turn on / off the front light. Ultra bright: Equipped with the latest generation LEDs (high power OSRAM P9 10W 6000K for 900 lumens in Turbo mode), the light illuminates up to 120 meters. It is equipped with a zoom to allow you to choose between focused (distance) or diffused light (to be used as a projector). Its weight is only 136g and the elastic band is easily adaptable: perfect for those who need comfortable lighting. Hands Free control: you can activate the hand free switch so as to turn the lamp on / off by simply passing your hand in front of the LED Convenient when using gloves or when your hands are busy. IPX4 waterproof: it is protected against splashing water. When it rains, the lamp works normally. Ideal for all outdoor activities such as running, camping, cycling, night fishing, car repairs.... It is also adjustable in order to direct the beam as you need. Steady or flashing red back light: perfect for signaling your presence. Rechargeable: Built-in 2200mAh lithium battery. It recharges via the supplied USB cable, no need to buy batteries. Autonomy over 5 hours. IPX4 waterproof: it is protected against splashing water. When it rains, the lamp works normally. Ideal for all outdoor activities such as running, camping, cycling, night fishing, car repairs.... It is also adjustable in order to direct the beam as you need. Fixed or flashing red back light: perfect for signaling your presence. Rechargeable: Built-in 2200mAh lithium battery. It recharges via the supplied USB cable, no need to buy batteries. Autonomy over 5 hours. IPX4 waterproof: it is protected against splashing water. When it rains, the lamp works normally.
