DESCRIZIONE / DESCRIPTION / DESCRIPTION / DESCRIPCIÓN / BESCHREIBUNG

Desk lamp with modern design - LED desk lamp, slim and essential design for a variable white light (3000K / 4000K / 6500K) to be combined with your study, bedroom or living room; will satisfy your need for extra light next to the sofa or in your favourite place of reading or work. It offers a powerful light (7W and 750 lumens) but also a choice of the light shade; in fact, through the special tactile selector, you can choose between 3 light colors: 3000K (warm white, more welcoming), 4000K (natural "day" light) or 6500K (the coldest but also brighter). Equipped with an ultra-sensitive touch dimmer that allows you to select the ideal lighting level for work, study, reading and relaxation, satisfying all your needs; setting of 4 degrees of brightness; it is also possible to adjust the upper arm by 180 °. The light of the LED desk lamp is very suitable for long reading and learning because it does not produce any flicker, glare or reflection; avoiding eye strain and offering gentle light; moreover the SMD 2835 LEDs use 50% less energy than incandescent bulbs, allowing you to save in the long term. Aluminium alloy material - the droid 2 LED table lamp does not contain mercury or lead, no infrared or ultraviolet radiation; it lasts up to 30 times longer than traditional incandescent lamps; the studio lamp has 24 months aimed at 100% customer satisfaction; Velamp is an Italian company; since 1906.
